

EMILIO PUCCI

FALL WINTER 2021/2022 JUNIOR PRECOLLECTION

The creative flair of Emilio Pucci and the vast archive of the Florentine Maison, with its surprising palettes and vibrant prints, are the antidote to the greys of early fall days and the rigours of winter. The FW 2021/22 Pre-Collection for girls stands out for its exuberant kaleidoscope of colours, beautifully paired with perfect cuts, special, elegant fabrics, and original detailing.

We see the return of **SAMOA**, with its romantic interpretation of leaves and flowers and a palette of fresh, almost spring shades such as bright pink or mint green, combined with other colours, such as navy blue, pale pink, and white. There is a wide range of daywear items that play with unusual fabric combinations; cotton interlock with washed silk in an all-over print, concealed in the fluid effects of pleats on dresses and skirts, or applied in the form of wide hems to complete sweatshirts and minidresses. The maxi logo is printed using an innovative heat-weld technique on items with a sportier feel. Everyday elegance comes from a return to sequins on sweatshirts and jeans. Solid colour jersey with added mesh detailing that becomes a micro sleeve or flounced maxi hem. Heat-welded mesh redefines the logo to turn it into an original embroidered motif.

Sophisticated workmanship and painstaking attention to detail are standout features of the whole collection, marking a return to the **LANCE** theme, a motif that expresses the Resort spirit of the Maison in full. Items designed for every minute of the day, but also lively ideas in lightweight fabrics, without a season, and able to satisfy the demand for celebration and the joy of rediscovered energy. LANCE is in fact rhythm and movement. Alongside the irreplaceable jersey are crêpe, muslin and satin fabrics that combine pale blue, cyclamen, geranium, and pink with strokes of black and white for elegant dresses, tops and skirts with a metropolitan feel, but also shorts, tunics, T-shirts, and one- and two-piece swimsuits. For the evening, in town or by the beach, dresses are all about elegance, thanks to the use of plissé effects, inserts in printed silks, and scalloped hems.

Colour and fun prints are also the focus in the collection for babies which, alongside rompers, outfits, and little dresses, are increasingly used to enhance nursery ideas with a full range of accessories.
