

Simonetta renews its collaboration with Chantecler Capri for the Fall Winter 2021-22 season, the *GIARDINO SEGRETO* capsule collection is born

Giardino Segreto brings to life a FW 2021-22 precollection for girls that is all about festivities and playtime. A capsule that expresses Simonetta's excellent knowhow, enhanced and enriched with the poetic iconography of jewellery by Chantecler.

Bon ton items with elegant detailing emphasise the extreme dedication of both companies when it comes to carefully chosen, quality materials for exclusive, contemporary results.

A fairy tale, told using *flowers and foliage*, where Chantecler's *campanelle* appear on leaves, like dew on a pale spring morning. The peony pattern bursts out onto caramel models in voluminous, sophisticated shapes, pairing naturally with precious, fine knitwear like the formal crop-cardigan. Dynamic macro polka dots become exquisite, embroidered detailing on the finest-quality tulle for voluminous dresses, magical full skirts, elegant palazzo pants, and soft blouses. Sky blues and pinks come together to create a secret garden in all its variegated hues.

Chantecler Capri *campanelle* and *galli* enhance the soft colours of the polka dot print and are used as charms on structured jackets, t-shirts, sweaters, and cardigans.

An ultra-modern font appears on the back of hoodies for everyday wear, while maxi rainbow *campanelle* and *faraglioni* are reinterpreted and embroidered on knitwear. Mikado, silks, tulle and denim create an extreme, intermittent exploration of balance, all translated as a feminine, girly capsule collection, from total looks through to accessories – like the dreamy scarves, sky blue baguette and fine leather belt, passing via fresh beachwear ideas.

Simonetta's Secret Garden for Chantecler Capri paints a delicate, harmonious picture of an Italian fairy tale, set among the hanging gardens of the famous island, with its echoes of the spontaneity and magic of a timeless location.
