

SPRING SUMMER 2023

The **Spring Summer 2023** collection by Caffè d'Orzo portrays a romantic sense of style, inspired by the carefreeness of summer afternoons immersed in the countryside with family. Italian and sophisticated, Caffè d'Orzo brings the pureness of nature closer to the universe of children, creating head-to-toe looks for girls with a minimalist essence, to be worn both daily and for special occasions. Delicate and dusty colours characterise premium-quality garments made from soft fabrics using natural and organic fibres, featuring a fresh and linear style.

The **colour palette** draws a great deal of inspiration from Mother Nature and family: from natural tones of beige, milk and pearl - inspired by grandma's old trunks - to brighter shades of pink, orange and wisteria, evoking the hues of the most varied species of flowers that grow in the spring.

The **fabrics** are ethereal, simple and lightweight: like the perforated knit cape with tinsel yarn, embellished by a tacked fastening with raw cotton ribbon, providing the perfect floaty effect for girls who love to play in the fields without compromising on elegance.

The **retro style** is accentuated by the bubble cotton fabric used to fashion midi dresses, practical tops with button fastenings and soft shorts sporting frill detailing. The main feature of the entire collection is the gauze proposed in different variations: with raw cotton threads to embroider polka dots on airy blouses and dresses boasting rustic allure, and with stones and glitter on cotton trousers bestowing refined details upon a coveted style.

The candid looks are further enriched by a statement range of **accessories**: lace, embroidered silk or polka dot gauze necklaces and headbands and bandeaus sporting brightly coloured flowers that recall the beauty of uncontaminated nature. Fun and playful elements that contrast with the simplicity that characterises the brand.

The **New Born** capsule collection completes the wardrobe, wholly inspired by its junior counterpart, re-imagining the everyday and refined looks for babies. Once again, the shapes are soft and elegant - rompers and dresses with a focus on comfort, in a poetic and timeless key.
