

ELIE SAAB

JUNIOR

SPRING/SUMMER 2023 COLLECTION

Elegance and sophistication characterise the Spring-Summer 2023 collection by ELIE SAAB Junior, a tale of refinement expressed through fabrics and manufacturing techniques of the highest quality. A collection that alludes to the women's segment, owing to its mini-me details.

Girl's

For girls, the volumes and shapes recall the iconic and timeless origins of the Maison, with this season's spotlight-stealing dresses drawing inspiration from garments of the past: looks of great prestige transform the girls who wear them into authentic modern-day princesses.

The colour palette resonates throughout the collection with delicate tones, such as teal and light pink, in addition to black and white - colours of eternal elegance and unparalleled sophistication.

The fabrics are graceful and refined: like the **high ceremony** dress fashioned in its entirety from flounced tulle, which elevates the style by accentuating the waistline and transforming the outfit into a true fairy tale. Organza is used to create bon-ton details on the puff sleeves of mini dresses sporting a regal twist, ideal for girls who like to daydream. The day wear garments, on the other hand, include embroidered jersey t-shirts and sweatshirts for elegant everyday looks.

The ELIE SAAB logo - in all its forms - becomes the leitmotif of the collection, from micro to macro: the monogram and medallion with intertwined initials, characteristic of the brand, come to life on floaty dresses with frill detailing, delightful blouses and fun coordinated sets.

The accessories frame timeless outfits flaunting a chic touch: the rounded headband is the main accessory in the elegant party line proposed in different materials and colours, which can be perfectly combined with all the pieces in the girls' collection.

Boy's

The boy's offering is truly elegant, dominated by black and white, with revamped and re-visited looks especially in terms of the materials used, which make it the perfect companion to the girl's line.

ELIE SAAB

JUNIOR

Sophisticated outfits that find expression through the use of noble materials and workmanship: as seen in the jacket with satin details that recall the fabric of the matching trousers, the poplin shirt and elegant bow tie.

The everyday collection reflects a boy with sporty-chic elegance, always impeccable and attentive to details. The coordinated sets with cotton gabardine bermuda shorts are combined with poplin shirts or comfortable jersey t-shirts, making them versatile and perfect for all occasions.

Even in the boy's line, the importance of the ELIE SAAB logo is plain to see: proposed in both a minimalist variant on the pockets of the bermuda shorts and in a maxi variant on the t-shirts.

Baby

The New Born line completes the wardrobe and is wholly inspired by the girl's collection, re-imagining the refined and elegant style for babies. Once again, pieces intended for special occasions feature sophisticated shapes, whilst also being more practical with a focus on comfort, in a chic key.

The choice for girls is even greater: from long dresses fashioned with tulle and satin, to dresses with matching silk panties and unisex looks, such as the rompers with all-over logo detailing, perfect for both baby girls and boys. All enriched by hats with a variety of fits and bibs boasting regal styling.
