

# KHRISJOY

FALL WINTER 2023-2024 COLLECTION

Imposing volumes, pop colours, refined details: Khrisjoy's high fashion style codes translate into a kids' collection with a strong, original and contemporary personality. Characterised by the unmistakable branded drawstring, the **Khrisjoy Kids** collection comes to life with **luxury "Mini Me"** down jackets that redefine the concept of outerwear and other proposals expressly created for children.

The iconic **Puff Khris jacket** and **Puff Vest**, Khrisjoy's signature garments, express their eclectic personality on matt fabrics such as wool and nylon, also available in a super shiny version, and in a colour palette that ranges from soft mint and pink to vibrant bubble gum, royal blue, military green, bright red and total black.

The collection's all-over prints are a triumph of vibrant colours, and feature '80s-style graphic details such as the Bandana, which echoes a pattern from the women's collection, and Graffiti. Lastly, metallic flashes make for glittery versions with a decidedly contemporary flair.

The **Cloud model** - a soft, enveloping, shiny cloud available in total black or in a more eclectic forest green and raspberry version, with tone-on-tone stitching - faithfully reproduces the cocoon proportions of the adult version.

Exclusive to the Kids' Collection are the **knitwear proposals** worked in various stitches and mixed with fleece, both in an oversized sweater and in an enveloping hoodie.

Oversize T-shirts, with both long and short sleeves, play with a kaleidoscope of prints, while garment-dyed, used-effect sweatshirts and joggers also come in solid colours.

The collection is completed by **newborn** items in true Khrisjoy style: a playsuit and a down sleeping bag in shiny fabrics, in bold colour block or all-over prints.
